**ANIMAL FAT REPLACER**

**PREMEO Animal Fat Replacer** is a high end vegetable based fat that imitates the function of animal fat in food products. It is an affordable alternative for animal fat made from palm oil. Scientifically designed and formulated to replace either raw beef fat or chicken fat in the manufacturing of emulsion meat specialty products and formed meat specialty products.

## Product Characteristic

- Solid shortening at room temperature with off white colour and is odourless.
- Vegetable based shortening to replicate the physical function and property of animals fat.

## Product Application

- Animal fat replacer use for sausages, burger patties, and nuggets.
- Provides good binding properties for meatball, salami, and fish cake.

## Product Specifications

Shelf Life: 18 Month
